Primary 5

Welcome

Welcome to Primary 5 with Miss Dunn and Mrs Harvey. Since starting back the children have enjoyed getting to know their new classmates, teachers and daily routines. We are looking forward to all of the activities we have planned in the term ahead.

What have Primary 5 been up to?

Outdoor PE

The children have been enjoying using the outdoor space for P.E this term. We have been working on our fitness and playing team games.

If I Were A Super Hero.....

The boys and girls have enjoyed designing themselves as Super Heroes. They had to think about their super powers, design a super hero costume and use their literacy skills to write adjectives and similes about what they would be like as a superhero. They used this information to then write a rhyming poem about what they would do if they were a super hero and created some artwork to go alongside it.

Primary 5 Class Charter

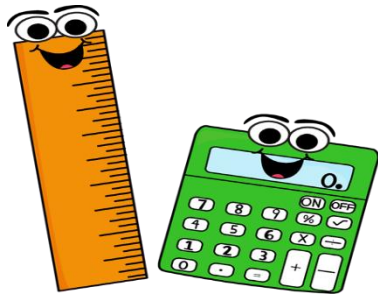

Every year, all the pupils across the school in every classroom create a Class Charter. The Class Charter is created to help children understand their rights in relation to the Articles in The UN Rights of the Child, to understand how important it is to have rights and to develop their own sense of responsibilities.

In Primary 5, the children chose the Articles that they felt were the most important and then created/reworded the articles to display in the class. The children then made their own minion to show their agreement and to 'sign up' to the class charter.

Social Studies Topic

In Social Studies we have been focusing on the book 'Have You Filled a Bucket Today?'. The book uses an invisible bucket, that everyone has, to help illustrate how to fill your bucket through daily kindness appreciation. It also explores feelings and how we feel when our bucket is full. We have been making our own buckets in class.

Maths

In Numeracy, we will be working on improving our instant recall skills for multiplication and division processes through daily practice in class. Children will be undertaking a variety of Maths activities to develop their skills in accordance to their ability groupings. These will include place value, shape, time, volume and money.

Literacy

In Literacy this term we will have a focus on poetry and narrative in writing. As part of our poetry topic, the children will be learning about Scots language and using it in their writing. In reading children will use our class library to read a variety of genres during personal reading. We will also be focussing on spelling this session and revising our spelling activities and skills from last year.

Health and Wellbeing

The boys and girls have been enjoying our weekly PATHS lessons. In PATHS the children learn about emotions, how they impact our behaviour and the different choices we have when dealing with them.

Happy Together, Learning Together, Achieving Together
